The exact benefits will vary according to the type of cloud service being used.
Requirements Engineering for Cloud Computing 2. PaaS takes the
software development platform as a service and delivers it to
the user as a software-as-a-service SaaS model.

Making science in the Grid world: using glide in stoma to maximize scientific output
the major cloud computing vendors are attempting to
differentiate according to the services that they offer,
especially if they can't compete with AWS and Microsoft in
terms of scale.
