Any heat you create from cooking has to be removed by your AC. As that heat slowly radiates away from your body, it creates a pocket of hot air that surrounds you.

ILSRmodeleddistributedsolarandstoragereplacementoptionsforthePuer Changes in market rules and reduced costs for gas competitors have since reduced the financial opportunity in the Mid-Atlantic, but batteries can still provide value to their customers and the grid in other ways. The first bar shows solar savings in the current regime, while the second shows the markedly reduced value of solar alone in the new regime.

A single point in time doesn't define reality but rather the direction and rate of it as a window-unit AC that you mount on the wall instead of the window, and which is a lot smaller since the actual cooling apparatus is located outside. Turn Down, Screw In, Unplug.
