I kept waiting for something interesting to happen. I just grew tired of hearing about it, really.

The "CommonKnowledge" section now includes a "Series" field. Author Glaser kept me chuckling through, even out-right guffawing in parts. If Letty lived in my neighborhood I'd buy her a virgin margarita and talk about all the people we know who are just as odd as we are. As Letty takes up her duties, she makes some disturbing discoveries: a set of files that Regina had stolen from the shelter; an AWOL resident, missing since the morning after Regina's death; an ethics complaint Regina had made against an unnamed peer.

The plot is twisting and turning at every point. After enrolling in Peel Academy, Skeleton Crew will likely inspire many more case resolutions. Already keen on tracking the murderer to clear her name, her quest becomes even more important.
